

# We, the Undersigned

proud members of the Yale community, denounce the behavior of the Delta Kappa Epsilon fraternity pledge class on Wednesday October 13, 2010. On that night, under the instruction of leaders of the fraternity, DKE pledges marched through Old Campus chanting “No means yes! Yes means anal!” This threatening behavior contributes to an unsafe environment for everyone, an environment in which sex is treated as conquest.

We ask that President Levin publicly denounce the behavior of these young men. The university administration has an opportunity to send a strong message about the culture it seeks to foster, the values it espouses, and the conduct expected of students. By not offering an unequivocal denunciation from the Office of the President, the university communicates indifference to DKE’s actions.

It is time for Yale to take action to address the culture around sexual speech and acts on campus. Events over the last few years have shown that this is necessary, from Zeta Psi’s “We Love Yale Sluts” sign in 2008, to an email rating freshmen on their appearance last fall, to this year’s DKE incident. As members of the wider Yale community, we are concerned that Yale is allowing an environment to grow in which sexism, sexual harassment, and hate speech are seen as isolated and trivial incidents, rather than as serious issues warranting university response.

Finally, we stand with everyone on Old Campus and beyond who was offended or felt threatened by these actions. We applaud those students who have courageously spoken out against these acts in the last week and over the past years. We stand by all who are taking action to build a nonviolent Yale based on mutual respect and dignity. You have our support.

Signed,  
Alumni and proud members of the Yale community
